## Stock Market

The stock market is a marketplace where buyers and sellers trade shares of publicly listed companies. It plays a crucial role in the economy by enabling businesses to raise capital and investors to grow their wealth. Stock markets operate through exchanges such as the New York Stock Exchange (NYSE) and the Nasdaq, where companies' shares are bought and sold.

## Crypto Market

The crypto market is a digital marketplace where cryptocurrencies, such as Bitcoin, Ethereum, and many others, are traded. Cryptocurrencies are decentralized digital assets that use blockchain technology to secure transactions and control the creation of new units. Unlike traditional currencies, cryptocurrencies operate independently of central banks or governments.

## Forex Market

The Forex market (foreign exchange market) is a global marketplace where currencies are traded. It's the largest and most liquid financial market in the world, with an average daily trading volume of over \$6 trillion. The forex market operates 24 hours a day, five days a week, allowing traders from all over the world to buy and sell currencies.
